Job Description	

Job Description Summary

Primary Responsibilities: The Child Sleep, Health, and Development Laboratory in the Department of Human Development and Family Science at Auburn University is seeking a postdoctoral research fellow with a start date in the summer of 2023 and no later than August 15, 2023. This is a two-year NIH-funded position with the possibility of extension. The fellow will work with Dr. Mona El-Sheikh and her collaborators and trainees to investigate multiple domains of child, adolescent and young adult adjustment in the context of family functioning and socioeconomic adversity with a focus on psychophysiological regulation, sleep and health disparities. Data are currently available from two federally-funded longitudinal studies that include a high percentage of ethnic minority participants from diverse socioeconomic backgrounds. For a description of Dr. El-Sheikh's portfolio of research, please visit her website <http://www.humsci.auburn.edu/~elshemm/>. Primary responsibilities of the fellow will

include data analysis and preparation of manuscripts for publication. The position also provides opportunities for training in collection and analysis of physiological (autonomic nervous system) and sleep data. Competitive postdoctoral salary (NIH pay scale) and attractive fringe benefits; support for conference travel related to study activities and data analyses and professional development online seminars.

Minimum Qualifications

Minimum Qualifications: Applicants must have a Ph.D. in psychology, child/adolescent development, or a closely related field by the date of hire. ABD status is acceptable at the time of application, but the terminal degree must be awarded by the date of hire. Strong quantitative skills (e.g., expertise with SEM and multi-level modeling) and experience with child/adolescent development research are required. The candidate selected for this position must be able to meet eligibility requirements to work in the United States at the time the appointment is scheduled to begin and continue working legally for the proposed term of employment.

Desired Qualifications

Desired Qualifications: Experience with developmental psychopathology, sleep, or psychophysiology research.

Special Instructions to Applicants

Applications: Applicants should apply via the online system at the following link: <https://www.auemployment.com/postings/32755>. Please provide a letter of interest, curriculum vitae, representative publications, and names and contact information of three references. Reference letters are not needed unless requested by Dr. El-Sheikh. Only complete application materials will be considered. Review of applications will begin on February 1, 2023 but the search will continue until the position is filled and interested candidates are encouraged to contact Dr. El-Sheikh (elshemm@auburn.edu) after that date.
