Key Responsibilities:

- Conducting research on topics related to education and employment outcomes.
- Assisting with the collection and consolidation of individual level data on internships and graduate employment.
- Compiling, processing, and analyzing data using statistics and econometrics software such as STATA and R.
- Preparing sections of analysis, writing manuscript drafts, and grant proposals.
- Working with relevant institutional units to obtain and understand the data and results.
- Liaising with individuals outside the team to handle any administrative work regarding the project.

Job Requirements:

- PhD or Masters in Economics specializing in Applied and Empirical Economics.
- Good research, communication, and management skills.
- Ability to work independently.
- Good track record in relevant research and a healthy line of papers and work-in-progress.
-
