Job Description

The SNAP-Ed program assessment coordinator plays a crucial role in research design, collecting, analyzing, and reporting data on the effectiveness of SNAP-Ed interventions. Key responsibilities include developing robust evaluation plans, overseeing data collection, ensuring data accuracy, analyzing data, and preparing reports to guide program improvement and communicate impact.

Knowledge Skills and Abilities

- Comprehensive understanding of SNAP-Ed components, programs, and processes
- Proficiency with key concepts and tools of program assessment and reporting.
- Hands on knowledge in data analytics and the use of data management tools.
- Skills to create databases and securely store all program related data and a nonnegotiable commitment to do the same.
- Ability to model complex phenomena and a fascination with finding insights from data.
- Strong organizational skills, attention to detail, and ability to work independently and collaboratively.
- Proposal and report writing skills appropriate for the SNAP-Ed program.
- Excellent written and verbal communication skills.

Essential Job Functions

- Develops and implements robust evaluation plans to measure the effectiveness of SNAP-Ed interventions, aligning methods with the academic direction set by the program leadership.
- Oversees the collection of qualitative and quantitative data, ensuring accuracy and completeness.
- Analyzes data, draws insights, and prepares reports to guide program improvement and communicate impact.
- Expert level use of NPEARS and PEARS reporting systems, among other assessment related software tools.
- Use of effective means of communication, including web and social media communication, to engage with the stakeholders and communicate findings and other program related information.

Qualifications

- Master's degree in a social science or closely related field, preferably with some coursework in research methods.
- At least one year leadership experience in professional settings where data was gathered, analyzed, drawn conclusions, and applied in decision situations.
- Hands on experience in the assessment of outcomes related to change interventions.
