longitudinal symptom networks to assess interactions between mood, stress, substance use and sexual function among heterosexual and bisexual women. This fellowship is designed as a two-year experience that includes in-depth training in sexuality science, quantitative and qualitative methods, and interdisciplinary collaboration. **In-person residency in the lab is preferred but hybrid/off-site work is negotiable.**

Salary and benefits are commensurate with NIH guidelines. Start date is flexible, with a target start date between March and Sept 2025.

For more information, please visit <https://employment.unl.edu/postings/93548>

We will begin reviewing applications October 18, 2024 and continue to review until the position is filled.

EEO/AA Policy
