aims to improve population health through multidisciplinary and translational research to support interventions, policy and programmes; strengthen national capabilities through the integration of translational research into health intervention processes; and increase Singapore's regional and international profile as a centre of excellence for health behavioural sciences.

We are looking for a Research Fellow to work closely with the centre's Directors to manage research projects and to secure research grants. The role will focus on project management, research expertise, managing and day-to-day research operations, such as data storage, budgets, expenses, assets, and ethics approvals.

Key Responsibilities:

- Manage daily operations, including budgets, expenses, resources, etc.
- Identify and secure funding opportunities from grants, partnerships and commercialisation
- Lead research projects, including ethics approvals, data collection, analyses and dissemination
- Develop relationships with academic, industry, government, and community partners
- Represent HABITS at conferences, meetings, and other events
- Collaborate with institutions and stakeholders to advance the centre's mission and reputation
- Promote and communicate HABITS achievements and research impact through publications, presentations and media engagement.
-
