Job Description

The Psychology Programme in the School of Social Sciences (SSS) is looking for a Research Assistant to support a research project funded by the Singapore Social Sciences Research Council (SSRC). This project seeks to understand how mid-life psychological and social risk factors are associated with neuroimaging and neuropsychological measures of the brain and longitudinal cognitive health. It also aims to ascertain the role of familial relationships as a buffering factor against age-related neurocognitive decline.

The primary responsibilities of the Research Assistant will be to assist the PI with research project
