international faculty, state-of-the-art research laboratories, and global institutional affiliations. The school is seeking a Project Officer to manage office administration, scheduling, meetings and events. This Project Officer will additionally play a role in supporting academic research. This includes conducting literature reviews, co-writing academic papers, analysing data, and participating in research teams to advance research objectives. The ideal candidate will be meticulous, conscientious and demonstrate a high degree of professionalism.

Key Responsibilities:

- Design and implement research, including literature review, data collection, and data analyses.
- Conduct and interpret qualitative and quantitative research
- Support research projects, including, securing ethics approval, contributing to academic publications and reports, managing operations, etc.
- Work closely with collaborators and third-party service providers in conducting the projects
- Daily operational, administrative, and logistics duties related to the research projects
- Conduct and organise project meetings
- Support the development of grant proposals
- Promote and communicate achievements and research impact through publications, presentations and media engagement.
- Undertake any additional duties as required by the supervisor
