CS-Methods and Applications for Probing Deep Neural Network

Compensation Range

In compliance with the New Jersey Wage Transparency Act, the hourly base range for this position is $15.49-$15.49. This range represents the University's good faith estimate of possible compensation at the time of posting. Stevens Institute of Technology determines compensation based on factors including the position's scope and responsibilities, the candidate's experience, education, skills, internal equity, market data, and organizational considerations. The final salary will be set considering departmental budget, qualifications, and relevant credentials. This pay range represents base pay only and excludes additional forms of compensation, such as incentives, stipends, or other applicable pay components.
