Job Description

Company Description:

The American University in Cairo (AUC) has a rich legacy that dates back 100 years. Founded in 1919 as an English-language university based on high standards of conduct and scholarship, AUC remains a vibrant institution that contributes to the intellectual growth, discipline, and character of the future leaders of Egypt and the region. AUC emphasizes a liberal arts education, with all undergraduate students studying a common set of courses in the humanities and the natural and social sciences as

part of the University's Core Curriculum. The AUC Libraries contain the largest English-language research collection in the region and are an active and integral part of the University's pursuit of excellence in all academic and scholarly programs. Located in one of the most interesting and important cities in the world - at the nexus of Africa, the Middle East, Asia, and Europe, and the center of events of the Arab world - AUC is chartered and accredited in the United States and Egypt. AUC is an English-medium institution.

Job Description:

The Department of Psychology welcomes applications for a full-time four-year position (assistant or associate professor ranking), with the possibility of renewal, in the field of Biopsychology/Neuroscience that is to begin Fall 2026. The candidate is expected to teach undergraduate and graduate courses related to physiological psychology, introductory and methods courses in psychology, behavioral neuroscience, as well as selected topics within the candidate's area of expertise. The candidate is expected to have an active research agenda and to pursue internal and external grant funding. The candidate is also expected to play an active role in departmental, school, and university service activities. An established record or potential for attracting research funding is desirable.

Requirements:

Candidates must hold a doctoral degree in biopsychology, cognitive science, neurosciences, or related discipline. Successful candidates should have an ongoing program of research and publication, and skills or potential in high quality teaching. Candidates with experience in and familiarity with the North American higher education system are preferred.

Additional Information:

Priority will be given to applications received by December 1, 2025. Review of applications will begin immediately and continue until the position is filled.
