Apply By Email

Job Description

The Experimental College at Tufts University seeks Visiting Lecturers from a range of backgrounds and professions for the Fall 2026 semester. Our goal is to bring new topics and perspectives to Tufts. Applicants are asked to design and - if selected - teach small, discussion-based courses that promote active learning and that engage Tufts undergraduates in an exploration of ideas and experiences shaping the world today. We are looking for out-of-the-ordinary courses that also have broad appeal.

In addition, we are interested in courses that incorporate experiential learning, add to students' professional competencies, or make clear the bridge between the course material and the post-college world.

Up to fifteen courses will be chosen from a very competitive pool. ExCollege courses are three-credit, letter-graded electives. Classes meet in the evening, once a week, for a total of 2.5 contact hours per week, over thirteen teaching weeks. Courses are taught in a classroom setting at the Tufts Medford/Somerville campus. Selected applicants may be asked to adjust their proposed syllabi as necessary to meet ExCollege and university guidelines.

NOTE: To avoid overlap, we recommend that you check course listings in [Tufts departments](#) related to your topic to make sure your course doesn't overlap with one already taught at Tufts.

Stipend: \$5,500.00 per course, whether taught individually or team-taught.

The semester will begin on September 8, 2026. The last day of classes is December 14, 2026.

Qualifications

Anyone who has some special expertise to offer Tufts undergraduates and has the ability to share that expertise effectively may apply.

All offers of employment are contingent upon the completion of a background check.

Application Instructions

Applications must be submitted via Interfolio.

<https://apply.interfolio.com/177635>

You will be asked to upload four documents: a teaching statement, a course proposal (with course description and bio), a syllabus, and a CV or resume. Please upload the four documents as outlined below to Interfolio.

You will also be asked to include a separate 200-word version of your course description and bio, which will be used to market your course to students.

If you are proposing a co-taught course, each applicant should complete the steps on Interfolio individually. The same set of documents that includes both applicants' bios and CVs should be uploaded. Please note that the stipend is split between the two co-instructors.

The deadline to apply is Monday, January 5, 2026.

We encourage all applicants to visit: <https://excollege.tufts.edu/teach-tufts/visiting-lecturers>

For more information call 617-627-3384, or email excollege@tufts.edu.

Document 1 - Teaching Statement

Teaching Statement (one page or less): Please state your current position, any relevant teaching and/or professional experience, and your educational background. Include also your teaching philosophy and the role you plan to play in the classroom.

Document 2 - Proposal

Course Description and Bio: In a paragraph, highlight the key elements that will be covered in your course. A question or two at the beginning of your description can help add to its appeal. Please see our [Past Courses](#) page of our website for examples. At the end of your course description, you should include a professional bio that highlights your expertise and relevant experience (job titles, previous positions, etc).

You will also be asked for a shortened version (up to 200 words) of this description and bio in the Visiting Lecturer Application Form section of Interfolio. This version is used to market the course to students who are looking for new, innovative electives.

Please note that titles, course descriptions, and bios may be edited at the discretion of the ExCollege.

Document 3 - Syllabus

Syllabus and Bibliography: Please upload a syllabus that is structured to cover your proposed subject in a 13-week semester. You should incorporate, in as comprehensive a manner as possible:

- A week-by-week outline of topics or questions you plan to cover
- A statement of expected learning outcomes for the course (for example, what you hope students will analyze, learn, create, etc. by the end of the semester)
- Anticipated class readings, viewings, assignments, and activities
- Bibliography of key sources

Please Note: Given the multidisciplinary nature of our courses, we strongly urge you to find course materials from a variety of sources rather than a single textbook.

Document 4 - Resume

Up-to-date resume or curriculum vita.

EEO/AA Policy

Tufts University, founded in 1852, prioritizes quality teaching, highly competitive basic and applied research, and a commitment to active citizenship locally, regionally, and globally. Tufts University is an Equal Opportunity Employer. See the University's Non-Discrimination statement and policy [here](#)
