**Job Description**

**This is a sixteen month limited term appointment. Continuation of employment is contingent upon availability of funds.**

Assists researchers in planning, maintaining or completing research programs and/or projects involved in the discovery of new knowledge, techniques, and concepts which require fundamental scientific/research knowledge, skills and abilities following relevant policies, procedures, regulations and laws.

The lab's research focuses on understanding brain processes associated with social, affective, and moral decision making. We're particularly interested in how these neural processes relate to problem behaviors and psychopathology, such as substance use and criminal behavior. The lab uses techniques such as fMRI and TMS.
